

# Provocation *Forward Planning*

## OBSERVATIONS

What EXISTING Play Urges or Big Play Ideas are you observing that have captured the children's ideas and thoughts?

What are the children engaged in?

What ideas and theories are they expressing?

## PROVOCATING

What theories or ideas do you want to extend and stimulate?

Is there an emotional connection?

Is there a strong drive to share ideas and thoughts?

## FACILITATION

What can you do to facilitate the movement of the children's play engagement?

What is missing that would help the children expand their expression of their ideas and theories?

What new mediums might you use? New contexts for exploring their ideas?

## REFLECTION

What surprised you?

What did you learn about the children and their play?
